VISION
A just and equitable society in which all communities thrive.

MISSION
To identify and collectively solve issues adversely affecting low-wealth communities throughout Miami-Dade County.
GOODBYE, MIAMI

By century’s end, rising sea levels will turn the nation’s subtropical urban fantasyland into an American Atlantis. But long before the city is completely underwater, chaos will begin.

COMMUNITY RESILIENCE
LEADERSHIP PROGRAMS

NO COST OR LOW COST
Offering your program at no cost or very low cost to participants reduces a major barrier to participation.

ENGAGE THE YOUTH
Conduct a concurrent youth program. This removes the barrier of childcare and helps families learn together. If possible, offer childcare for parents whose kids are not yet school-aged.

FULL BELLIES, OPEN MINDS
Providing a hot meal for your participants is a strong incentive for program participation and helps increase focus.

OFFER TRANSLATION
Making your program accessible to speakers of different languages via translators or interpreters helps to keep your program inclusive.

TRANSPORTATION
Host your training within the communities you are trying to impact. If possible, set aside funding for carpools, public transit, or ride-sharing.

CAN MIAMI'S 'FOREVER BOND' BE A MODEL FOR FAIR DEVELOPMENT IN A FLOOD-PRONE CITY?

Advocates in Miami are working to ensure that minority and low-income communities have a say in how to spend a $400 million bond that's poised to make the city more resilient to climate change.
