Where Resilience Meets Resistance: Stories from Cedar Key, FL

Lily Swanbrow Becker, Adaptation Coordinator
Florida Fish and Wildlife Conservation Commission
1. A Place Worth Protecting
2. A resilient place
A connected place
3. A connected place
4. A resistant place?

• 58% did not believe climate change is occurring in the region
• 83% did not believe SLR is occurring in the region
• 42% would stay and adapt in a future SLR scenario
• 50% said they would stay without adapting
• 8% would retreat inland
